TIA ESTHER

Hey! I'm Tia.

I've been a photographer for 5 years now and nothing brings me more joy than getting to be a tiny apart of others' stories.

Time is always passing and memories are always being made. Your memories are something I cherish as my own.

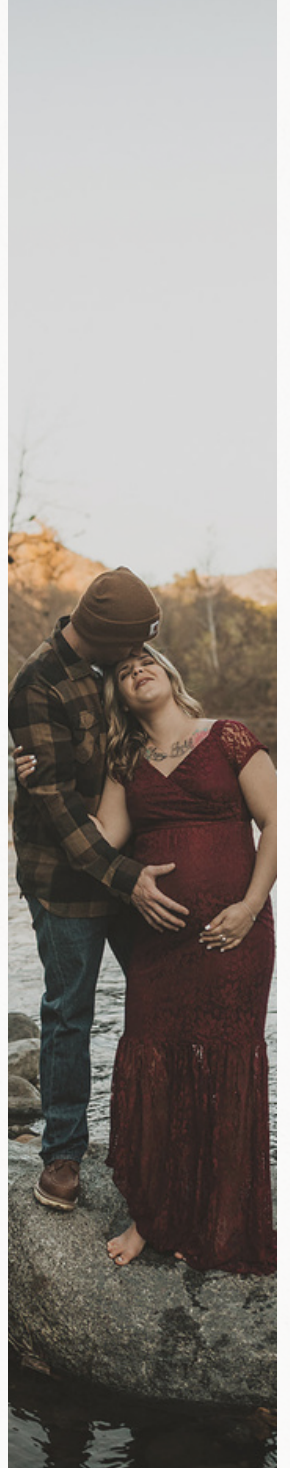

xx,
Tia Esther

MY PROMISE

Being a maternity,
newborn and
breastfeeding
photographer has helped
shaped moments of my
life unrelated.

Watching women enter
this sacred right of
passage and see it all the
way through is truly a
testament to the woman.

This journey is so
beautiful and bonding for
you and baby. I promise to
keep this sacred and
serene, easy-going as
possible and to do my
best to make sure you are
comfortable.

WOMAN | MOTHER

There is nothing in this world more incredible than birth, the female body and all of it's capabilities.

*Celebrate it as you should.
Take the time to never forget this time of your life, for it will never be the same again.*

MY PROCESS.

01 GET AQUAINTED

You are here!

And if you're here it means we're going to hop on a consultation call to go over everything you want out of your images and what I can provide to you.

02 PLANNING

After we have hopped on our call, it's time to plan all the details together. This includes outfits, colors, pinterest boards, etc.

03 SHOOT DAY

The day has come!

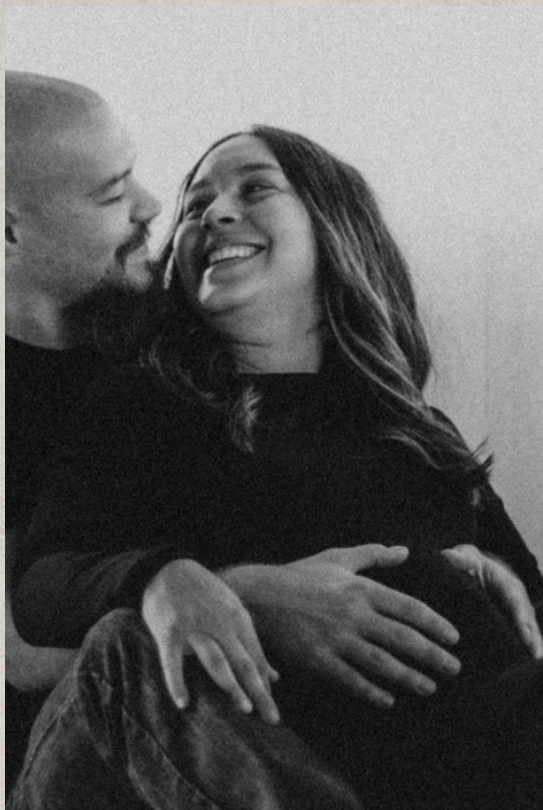

All the details are planned and sent over to you to confirm. I will show up 20 minutes early to do any last minute planning or helping with outfits and we will start!

04 FINAL TOUCHES.

Once our shoot is over, I go home and back up all of your images. After that comes my 2nd favorite part- editing!

As soon as I am done and have carefully gone through your images, I will send them out to you in no more than 4 weeks.

PHENOMENAL

Tia took photos of my graduation where we announced my pregnancy. We then took maternity photos which I am obsessed with, and I'm obsessed with my graduation photos. She captured the moment, the memory and so much more. she is now taking photos of my newborn son, and it's such a special moment.
